

# earth heroes ACTION

## About Me - Santhosi

- Founder of [Earth Heroes Action](#)
- Used to live in New Jersey, USA, and recently moved to India for good
- Home schooler and a pet lover
- Hobbies are,
  - Drawing, crafting, reading, loomng, and especially singing!
- Favorite animal is dog

# earth heroes ACTION

- Wondering what is [Earth Heroes Action](#)?
- I started this action in 2020, because I noticed that plastic usage is harming for our beautiful planet and all the living things in it
- My goal is that I want to give awareness to the children's like me - and I want them (you all) to understand the problem and to take an action now!

## earth heroes ACTION

- I am going to tell you how I got my action to every one
- Posting awareness videos on my YouTube channel [Santho Spot](#)
- For 2021,
  - I had designed a calendar in the theme of [save the planet](#), and it was a seasonal business
  - I made my own drawings and all of them are themed to [save the planet](#)
  - That was a very big hit
- So for 2022,
  - I made a bigger and better calendar
  - I had designed it especially for children
  - It has fun activities and information

## Photo Gallery

- In 2021 I made a earth themed calendar. And the Robbinsville mayor noticed my work and gave me an appreciative letter.
- I started plastic pickup drives to give more awareness to kids like me to not litter. With the help of Thuppuravalan Recycling unit.
- I meet the mayor of Tirupur and gave him my calendar.

# What do we have to do?

## earth heroes ACTION

- All this is happening in our planet because of us
- Lets join together to build a better place for us and the future generations.
- Now, wondering what can you do to help?
  - Save water
  - Pick up trash
  - Turn off the lights
  - No litter, etc.

- And another way to save the planet is that you can reduce climate changes!
- I know that you are thinking why is the climate change harmful? because, it warms up the weather, and melts ice in other cold animal homes!
- Try not to use car for short distance places, and try to walk or ride a bike
- I hope you are a responsible earth hero!
